Merchant Court Hotel, Singapore  
Hands-On Workshop 31st July 2011 (Sunday)  
800am to 100pm, National University of S'pore

### Limited Attendance Hands-On Workshop :

Combining Esthetic Principles In Order To Produce Predictable and Consistent Clinical Results; Creating a Life-Like Composite Veneer.

## Dr Frank J Milnar DDS, AAACD

Frank is a graduate of the University of Minnesota, School of Dentistry. He is an accredited member of the American Academy of Cosmetic Dentistry and a Board Examiner for accreditation. He currently maintains a full-time practice in St. Paul, Minnesota emphasizing appearance related dentistry and has published numerous articles about the direct placement of composites, shade selection and porcelain materials. Dr. Milnar is co-founder of the Minnesota Academy of Cosmetic Dentistry and lectures extensively within the U.S.

Armed Forces as well as internationally on the subject of direct composite restorations, shade selection and porcelain materials. He has been voted "Top Dentist" for the last several years in the Minneapolis/St. Paul Magazine. Currently, he is the Professional Education Committee Co-Chair for the AACD, member of the AACD Educational Alliance Committee, Global Education Committee and Chair for the Innovative Educational taskforce.

## Hands-On Workshop at Simulation Lab, Dental Faculty, National University of Singapore.

This course is designed for clinicians seeking to improve their skills in order to confidently restore composite veneer cases, from simple to complex. Layering techniques taught in the course will enable the participants to create life-like esthetically pleasing restorations. Polishing and finishing techniques will be reviewed in detail and a step-by-step procedural approach to solving daily anterior challenges will be presented. All materials provided.

## Lecture Topic : Creating Natural Esthetic Composite Restorations – Awaken the Artist within You.

In response to the change in patient expectations, a great proliferation of products and procedures have been developed which enable the dental profession to perfect the art of creating accurate and visually pleasing restorations utilizing the "Responsible Esthetics" philosophy. This seminar is designed to provide you with information and tips that will help you quickly select products and develop the techniques required to construct direct composite restorations that meet the needs of the patients. Learn how to improve your skills and confidence using composites in complex anterior cases that utilize minimal invasive concepts.

- Learn a logical method of shade selection to get more consistent esthetic results with your composite and porcelain cases
- Become confident when treating difficult Class IV, Diastema, and Composite Veneer restorations
- Learn how to properly finish and polish composites and create the correct surface texture
- Understanding the four dimensions of dental esthetics; color, opacity, opalescence and fluorescence.

800 Registration  
830 Milnar Lecture pt 1  
1000 Tea Break  
1030 Milnar Lecture Pt 2
